

Agility Seminar
With
Dave Munnings
March 2-4, 2012
NOCI Training Hall, 735 Industrial Dr, Cary, IL

Northwest Obedience Club (NOCI) is happy to announce a Spring agility seminar with Dave Munnings. Dave is one of the UK's top agility handlers and trainers, having represented Britain multiple times at the FCI World Agility Championships. Dave and his Dog Billy won the Bronze Medal in 2005 and the Silver Medal with his dog Dobby in 2010. Dave and Dobby also won the Gold Medal at the European Open Championships in 2009 and 2010. Dave was the Great Britain Team Coach in 2011.

Dave has developed his own training style. His first instructional DVD, "Q-Me", was recently released with great reviews. He has conducted instructional seminars across Europe and Canada. This visit to NOCI will be the first time that he has presented his training in the United States. Dave uses positive reinforcement and his training style and instruction are highly motivating.

This will be a progressive seminar with each day building on the next. It will center around focus, control, drive and a working frame of mind, as well as, creating a solid working relationship. This will be geared for young dogs getting ready to compete. However, it will also be a great addition to those dogs already started in competition. There will be exercises on the flat, as well as with equipment. A portion of the seminar will be devoted to contacts. As a qualified Osteopath, Dave will discuss the importance of proper warm ups prior to training and or competitions. You can view more on Dave at <http://www.davemunnings.co.uk/>

The cost of the seminar will be \$450.00 for a 3 day working spot. Auditing spots are \$75.00 per day. As a progressive seminar, working spot preference will be given to those people who are working all three days. In the event the working spots do not fill, daily working spots will be offered for \$175.00. A 50% deposit will be required to hold a working or auditing spot with the balance due no later February 1, 2012. A waiting list will be created to fill any spots opened by cancellations. Working spots will be limited to 12 handler/dog teams. 20 auditing spots will be available. All working dogs need to be working on full height equipment. Aframe and dogwalk will be rubber coated.

A continental breakfast and lunch will be served each day for all seminar attendees. A liability waiver will need to be signed at check in prior to the start of the seminar.

For more information contact Tim Dyer at agilevs@frontier.com (preferred) or (815)508-3178
